

CHICKEN TRACKER MOUNTING INSTRUCTIONS

White 5000 Planters & White 6000 Planters with a Single Press Wheel (4" TINES)

(Read Instructions Completely before Beginning Installation)

Before working on your planter

DANGER: When storing or working on the planter, always install cylinder stops or place the planter on stands to prevent personal injury or damage to the attachments.

Before you begin, verify all items listed in the "package contents" table at the right.

- #1:** Remove the original press wheel from your White 5000 or 6000 planter.
- #2:** Put the Chicken Tracker wheel in the place of the original wheel. Tines can be directed either way, but we recommend they run with tips down when viewing from the back of the planter.
- #3:** Assemble as shown using the bolt and bushings included in the kit.
