

# WHEEL SCRAPERS

*John Deere, Kinze & White  
gauge wheel scraper*

**Scraper easily flips out of  
the way when not in use.**

**T**he gauge and press wheel scraper consists of an adjustable poly blade or a metal blade that keeps the depth wheel clean and mud-free allowing you to keep an even and consistent seed depth. Mud build up can lead to shallow plantings, delayed emergence and overall reduction in yield.

With the gauge and press wheel scrapers you will be able to **spend more time on the tractor with no time cleaning your depth wheels**. No down time cleaning the wheels equals more acres planted per day.

The gauge wheel scraper easily welds or bolts onto most planters and once the wheel scraper is installed, with a one wrench design, it will conveniently flip out of the way when you are not using it.

*John Deere 455 press wheel scraper*

*Case IH press wheel scraper*

*Chicken Tracker scraper*

*Case IH 1200 gauge wheel scraper*

# WHEEL SCRAPERS

## FEATURES—DESIGN

- ▶ Readily adaptable on most planters
- ▶ Welds or bolts on
- ▶ Flips out of the way when not needed
- ▶ Scrapers are made of high molecular poly for wearability
- ▶ Designed shape to fit contour of tire
- ▶ Scrapers are adjustable in and out - up and down to fit any tire
- ▶ Slotted holes in scraper and arm for adjustability
- ▶ Dual edge scrapers for double life

## BENEFITS

- ▶ Keeps the gauge and press wheels clean even in loose, muddy soil
- ▶ Keeps gauge wheel clean so seed depth does not change
- ▶ Affordable & economical
- ▶ Let's you plant wetter/better

**ELIMINATE MUD  
BUILD-UP**

without scrapers
