### STEP #1:

Use the four 3/8" bolts and lock nuts to bolt the scraper bracket to the press wheel arm bracket.

### STEP #2:

Loosely bolt the plastic scraper to the top side of the mounting bracket with the 1/4" whiz bolts and 1/4" whiz nuts.

The bolts go through from behind the bracket and the nuts should be placed on top the plastic scraper piece.

Adjust the scraper as needed to wipe the mud off the press wheel, and tighten the nuts.
